Subcommittee, Agency and Account Information

Subcommittee

Energy and Water

Agency

Department of Energy

Account

EERE - Building Technologies

Project Information

Project Name:

Village of Evergreen Park Northwest Section LED and Pole Section Replacement

Amount Requested:

\$518,000

Project Description:

This project will replace current high wattage luminaries with energy efficient LED lamps and replace badly deteriorated direct bury wire and light standards.

Intended Recipient of Funds

Village of Evergreen Park

9418 S. Kedzie Ave

Evergreen Park, IL 60805

Explanation of the request:

This project will replace current high wattage luminaries with energy efficient LED lamps and replace badly deteriorated direct bury wire and light standards. The present system has direct bury wire that is dangerous and fails often rendering the neighborhood dark. The new energy efficient lights will not only burn brighter for greater safety, will consume a fraction of the energy compared to the existing system. The new installation of the system will also solve the dependability problem as well as the safety problem.
